

# IVAN SAM WABINA

## BACKEND DEVELOPER

Davao City 8100 | ivansamwabina@gmail.com | <https://github.com/SaaammmyyyS>

### SUMMARY

Devoted coding enthusiast specializing primarily in backend development, highly interested in leveraging technology to address real-world challenges. I am excited about contributing backend development expertise to dynamic projects and collaborative teams.

### PROFESSIONAL EXPERIENCE

- |  |                      |
|--|----------------------|
| <b>Backend Developer, Gymeasy</b>  | April 2025 - Present |
| • Developed and maintained scalable Spring Boot APIs for critical membership management and secure payment processing features, ensuring high availability.            |                      |
| • Streamlined deployment and environment consistency by containerizing Spring Boot applications with Docker, facilitating smooth operations.                           |                      |
| <b>Backend Head Developer, SAMAHAN Systems Development</b>   | Aug 2024 - June 2025 |
| • Led the backend development team in designing and implementing scalable and robust APIs using Node.js and NestJS, with a focus on RESTful architectures.             |                      |
| • Architected and optimized database structures using PostgreSQL, ensuring high performance and data integrity across multiple services.                               |                      |
| <b>Backend Developer Intern, Infosoft</b>  | May 2024 - Aug 2024  |
| • Contributed to the creation of comprehensive documentation, facilitating faster onboarding for new team members.   |                      |
| • Collaborated proactively with project managers to provide regular status updates on task progress, helping maintain transparency throughout the development process. |                      |

### SKILLS

Laravel	Django	React
Selenium Webdriver	NestJS	Docker
Spring Boot	PostgreSQL	AWS S3

### EDUCATION

- |   |                      |
|---|----------------------|
| <b>Bachelor of Science in Computer Science</b>                  | Sep 2021 - June 2025 |
| Ateneo de Davao - Davao City                                    |                      |
| • Relevant coursework in Process Design and Project Management. |                      |
